SeaGL 2026

October 23 & 24

The Husky Union Building (HUB)

University of Washington | Seattle, WA

2 Days | 4 Keynotes + 44 Talks

2026

Welcome to Seattle's free—as in freedom and tea—GNU/Linux conference!

SeaGL has spent fourteen years building a grassroots technical conference that embraces and promotes free/libre/open source software, hardware, and culture.

We hope you'll have a fantastic time and learn something new, whether you spend your days maintaining hundreds of systems or are a student just getting into technology.

SeaGL is dedicated to a harassment-free conference experience—for everyone. Our code of conduct can be found at SeaGL.org/CoC and our health & safety policy at SeaGL.org/Health
